PROVINCIAL TABLES.

MANDALAY DISTRICT.

The population of Mandalay district amounts to 374,060 souls, of whom 188,815 or 50·4 per cent live in Mandalay City. It is reported that the city is decreasing in wealth and population, notwithstanding that the opening of the railway lines has in some measure remedied the severe blow which the prosperity of the city received at the annexation. Mandalay, despite its size, is one of the youngest cities in the world. It was founded in A.D. 1857 after the accession of Mindôn Min. In fact the inhabitants of Amarapura were forced to emigrate *en masse* to the new capital. This emigration was felt the less owing to the almost total destruction of the former capital in the troublous times that attended the accession of the new King. Under these circumstances we may expect that Mandalay City in 1901 will probably be less populous than in 1891.

PROVINCIAL TABLES.

BHAMO DISTRICT.

The greater part of the Bhamo district was excluded from the regular census tract The distribution of the area of this district is shown on the Census Map, No 2 The division of the regular census area into townships and circles does not agree with the distribution shown in the official notes and statistics. On referring this discrepancy to the Deputy Commissioner, he reported that the distribution in the census tables is correct but is fuller than that of the notes and statistics

On 6th July 1892 the Upper and Lower Sinkan circles were transferred from the Bhamo to the Kaungtôn township. It must be understood that those circles and villages not found in these tables were excluded from the operations of the regular census.

PROVINCIAL TABLES.

KATHA DISTRICT.

A considerable part of the Katha district, for reasons that have been detailed in the census report, was excluded from the operations of the regular census. It must therefore be understood that those townships, circles, and villages that are not found in these tables were thus excluded. The Deputy Commissioner reports that since the census was taken there has been a redistribution of the townships. The Shwe-Ashegyaung township has disappeared altogether and a new township called Mawlu has appeared in its stead. To this township the circles of Ngagayaing and Mawlu, which formerly belonged to the Katha township, have now been transferred.

PROVINCIAL TABLES.

SAGAING DISTRICT.

The Deputy Commissioner reports that various alterations have been made in the distribution and names of the circles of his district In order to show what these alterations are, I have preserved the distribution of the district as it stood on the 26th February 1891 and have bracketed the circles that have been since consolidated

PROVINCIAL TABLES.

UPPER CHINDWIN DISTRICT.

The total area of this district is estimated to be 19 000 square miles, but only part of this area was included in the regular census operations namely, the Mingin, Taungdwingyaung, Kindat, Bilet, Legyaing, and Kabaw (Kubo) chaung townships

As has already been noticed in the Report on the Census, Volume I, the destruction by fire of the schedule books of the Uyu township rendered necessary the inclusion of that township among the tracts excluded from the regular census operations Beside the Uyu township there are three States,—Kalè, Taungthut, and Kanti,—which for various reasons were also excluded from the regular census operations The population of these excluded tracts has been returned at 41,256 persons of both sexes, and including this return in that of the population of the regular census area, the total population of the district is 117,041 souls and the density of the population per square mile is 6 16 If the three states of Kalè, Taungthut, and Kanti are not included in the Upper Chindwin district, the population of the district would be returned at 97,793 souls and the density of the population per square mile is 5 14

PROVINCIAL TABLES.

MAGWE DISTRICT.

Of all the districts in Upper Burma the Magwe district was the last to be pacified. In the troublous times immediately succeeding the annexation, many villages were burnt by the dacoits and many more deserted by their inhabitants from fear of being attacked. The district was pacified by the time the census was taken, but the full effects of the pacification were not yet felt. Since the census was taken, however, large numbers of deserted and burnt-out villages have been re-built. Thus, while there has been no alteration in the area of the subdivisions or townships, several large revenue circles have been split up into smaller ones and several circles have been re-constituted because the village or villages composing them have been re-built.

It will be noticed that the circles in this district are very small as compared with those in Lower Burma, several of them containing but one village.

The following changes have been made since the census was taken in February 1891.

In the Magwe subdivision, Gyokôn township, the Wetmasut circle has been broken up into the—
- Wetmasut circle, which contains the Ngalanda or Wetmasut village.
- Wetlut circle, which contains the Wetlut village.
- Yônseik circle, which contains the Yônseik and Thapanchaung villages.
- Magyichidauk circle, which contains the Magyichidauk, Chauksègyun, and Padethagyun villages.

The Thapanchaung village has been re-built since the census was taken.

The Thamandalin circle has been divided into the—
- Thamandalin circle, which contains the Thamandalin and Pôkkôn villages.
- Gaungdaw-u circle, which contains the Gaungdaw-u village.

The village of Dandalunsan has been since broken up.

The Magwe myoma circle has been divided into the Myoma circle, which contains the town of Magwe and its suburbs the—
- Kyitsônbwè circle, which contains the Kyitsônbwè and Pônlè villages.
- Payabyo circle, which contains the Payabyo, Gwedauksan, and Sanbyu villages.
- Kanbya circle, which contains the Kanbyama and Kanbyathit villages.
- Nyaungbin circle, which contains the Nyaungbin and Ywathitgyi villages.
- Sadainggan circle, which contains the Sadainggan and Nwagu villages.
- Wetthaik circle, which contains the Wetthaik, Dahatkan, and Kanhla villages.
- Natkan circle, which contains the Natkan, Ywathitkale, and Tônbauktaw villages.

In the Thazi township, Patanago circle has been broken up into the—
- Patanago circle, which contains the Patanago village.
- Gwechaung circle, which contains the Gwechaung village.

The two following circles have been re-constituted—
- (1) The Ngasaung circle, which contains the Ngasaung village.
- (2) The Sanmagyi circle, which contains the Sanmagyi village.

In the Taungdwingyi subdivision, Satthwa township, the Thadodan circle has been broken up into the—
- Thadodan circle, which contains the Thadodan village.
- Pyadu circle, which contains the Pyadu village.

The Ma-u-aung circle has been broken up into the—
- Ma-u-aung circle, which contains the Ma-u-aung village.
- Thitpôkkôn circle, which contains the Thitpôkkôn village.

The following circles have been re-constituted :—
Ywamana circle, which contains the Ywamana village.
Nyaungwun circle, which contains the Nyaungwun village.
Kinmôndaung circle, which contains the Kinmôndaung village.
Thitya circle, which contains the Thitya village.

PROVINCIAL TABLES.

KYAUKSE DISTRICT.

In the Kyaukse district alone, of all the districts in Burma, there are no revenue circles corresponding with the တိုက် "taik" or revenue circle of Lower Burma. The townships are divided into village circles. I have, however, preserved the grouping of villages into census circles as a guide to the distribution of the area at the next succeeding census. Owing to the fact that the villages that compose the suburbs of the Municipality of Kyaukse have been shown in the village tables, the totals of these village tables will not coincide with the township totals.

PROVINCIAL TABLES.

PYINMANA DISTRICT.

The Pyinmana District Tables, which have been very carefully revised by the Deputy Commissioner, have undergone some alteration since the census was taken. The Paunglaung township has been divided by excluding the town of Pyinmana and the circles of Pyinmana and Ywaguk, Nos. 18 and 19. These two circles and the town of Pyinmana now form the Pyinmana township. A few alterations have also been made in the village table. These are shown in the footnotes. The areas given in the tables are taken from the official returns. The Deputy Commissioner reports that they are much exaggerated.
